Industry-leading reliability and quality

All KONE solutions follow strict quality standards which are dedicated to provide efficient and smooth People Flow experience.

We pay special attention to ensure that the quality and durability of the selected components match the environment and People Flow requirements, minimizing any unplanned downtime.

KONE has been a leader in delivering reliable, safe People Flow for more than 110 years

- Tens of thousands of installations all around the world
- Reliability and safety guaranteed under even the most demanding operating conditions

Optimized material selection for quality and reliability:

- Proven technology on component level
- Usage of wear resistant materials
- Optional permanent monitoring of escalator

Certified supply chain

- Suppliers are required to comply with international standards
- All of our production operations are certified according to the ISO 14001 standard.

KONE Kunshan escalator factory

KONE Kunshan escalator LEED gold certified factory is the largest escalator production base in the world, covering an area of 29,000 square meters. Around 95% of the KONE escalators supplied globally are from the Kunshan factory.

The most comprehensive escalator performance test in the industry

The KONE factory is the first and only factory in the industry to test every escalator produced, for noise, vibration, speed detection, and energy consumption rates – ensuring consistent quality, passenger safety, and excellent ride comfort.

Differentiate with a redefined user experience

Enhance your escalator in a way that suits you. KONE DX Escalators lets you mix and match features and services, so you can tailor your escalator to what matters most. Transform how people move around your building with next-generation safety and wayfinding tools, and add a little magic to everyday moments. Let's move into the future together.

KONE Handrail Sanitizer Premium

Encourage safer behavior with visible handrail sanitization, designed to protect passengers against viruses, bacteria and dirt, and make holding on worry-free.

KONE Escalator Video Monitoring

AI-assisted video monitoring delivers custom insights tailored to your needs, improving performance, optimizing flow, and intelligently identifying risks.

KONE 24/7 Connected Services

KONE 24/7 Connected Services is a discreet/intelligent way to increase uptime thanks to predictive maintenance and instant alerts that keep people moving around your building smoothly—today and tomorrow.

Light the way

Deliver intuitive experiences for wayfinding and accessibility with lighting for handrails and skirting—and delight passengers with themes for special occasions.

KONE Design Lighting

Add a little magic to everyday moments with journeys that inform, guide and delight—from themed lighting to illuminating wayfinding experiences and media screens.

Safety = peace of mind

All KONE moving walks are equipped with the necessary safety features as required by applicable codes and standards.

Furthermore, should you require solutions to address specific safety concerns related to your People Flow, our sales team will be pleased to offer a selection of optional features tailored to your needs, such as:

- Traffic signalization, skirt lighting, yellow comb segment, step demarcations provide extra visual guidance for passengers to help them to have a smoother and safer ride
- Audible alarms increase clear guidance on moving walk travel direction and improve passengers' attention
- Halogen-free cables
- Provisions for seismic locations
- Extended monitoring options with KONE 24/7 Connected Services and KONE Escalator Video Monitoring

For a complete list of standard and optional safety features please contact your local KONE sales representative.

Safety = peace of mind

Extra visual guidance

Traffic signalization, skirt lighting, yellow comb segment, step demarcations provide extra visual guidance for passengers to help them to have a smoother and safer ride.

Audible alarms

provide clear guidance on escalator travel directions and enlarge users attention.

Fire safety

maximised with halogen-free cables and fire fighting provisions.

KONE Handrail Sanitizer Premium

continuously reduces bacteria, viruses and dirt from the handrails and encourages users to hold the handrail

KONE skirt switch solution

reduces the risk of entrapment

KONE 24/7 Connected Services

helps you to see the status of the escalator in real time to ensure safe operation.

Anti slip requirement

Anti-slip grade step surface reduces the chance of passengers slipping.

Video monitoring

improves operational performance and safety by automatically detecting pre-defined user behaviours.

Reduced environmental impact

KONE has always been a leader in energy saving and innovative technology in the industry, and enjoys a world-wide reputation. All our escalators and moving walks have achieved A+++ energy performance certificates based on the ISO Standard 25745-3.

Make your moving walk more eco-efficient

- 01 Sustainable drive options**
minimize energy consumption.
- 02 Long-lasting LED lighting**
is up to 80% more efficient than fluorescent lighting and lasts up to 10 times longer.
- 03 Eco-efficient operational modes**
save energy by slowing down or stopping the escalator completely when traffic is low. For example, when an escalator is empty, energy consumption is further reduced with KONE's smart star-delta operational mode, which regulates the current needed for different types of load situations.

Moving walk sustainability

At KONE, we want to contribute to better urban living by helping people move around in and between buildings, in ways that are smooth and safe. A great deal of that is about sustainable practices.

Green building certifications

Installing an eco-efficient KONE TransitMaster™ 165 can help achieve green building accreditations such as LEED or BREEAM certifications. For more information, contact your sales representative.

BREEAM®

Eco-efficient escalator

KONE TransitMaster™ 165 has achieved A+++ energy performance certificate based on ISO standard.

EcoVadis Gold medals

KONE holds the EcoVadis Gold medal for its sustainability performance, being in the top 5% of all the assessed companies. The EcoVadis rating covers a broad range of non-financial management systems including environmental, labor and human rights, ethics, and sustainable procurement impacts.

CDP's A list

KONE has been recognized by CDP for its actions towards reducing emissions, mitigating climate risks, and developing a low-carbon economy. KONE achieved a place on CDP's prestigious A List signifying that we rank among a small number of high performers.

Forbes 2024 World's Best Employers list

KONE has been recognized as one of the best employers in the world by Forbes business magazine on their Forbes 2024 World's Best Employers list.

Plan for success with KONE as your partner

Choose a partner with over a century of experience in delivering pioneering People Flow. Get expert advice from professionals and enjoy the peace of mind that comes with comprehensive support. KONE is with you every step of the way – from planning and design, through installation and maintenance, to modernization – for the entire life cycle of your building.

Expert design and planning services

- Expert planning advice helps you specify the optimal solution for your building.
- Renowned engineering and design capabilities at your service can create tailor-made solutions to exactly meet your specifications.
- Easy-to-use online design tools save your time and effort during design process.
- Energy consumption calculations available for every individual escalator solution.
- Escalator lifecycle cost calculations available for budget planning.

Safe and efficient installation

- Highly efficient installation methods result in considerable time savings and minimize disruption to other construction work.
- Strict quality criteria for each installation phase ensures the right fit every time.
- Continuous training, site audits, safety passports, certified Project Management, and proven methods ensure maximum site safety and on-time delivery.
- Eco-efficient installation processes minimize waste and maximize recycling.

Quality assurance, modernization and professional maintenance

- KONE's own reliability laboratory tests and approves every component used in our escalator solutions.
- Modernization extends the equipment lifetime, and the recycling, reuse, and refurbishment of specific components and materials contribute to the circular economy. then put the point of global spare parts center and then last the one of preventive care.
- Preventive KONE Care® maintenance solutions and a comprehensive online service-reporting system make it easier to monitor and budget for escalator maintenance.
- Our global spare parts center stocks over 150,000 parts and offers 24-hour delivery for the most commonly requested parts.

Flexibility to match your building requirements

Flexible Features

KONE TransitMaster™ 165 moving walks are designed to fit all your needs, from shopping malls to big retail centers. KONE engineering capabilities will help you to fulfill your specifications in the best possible way.

Tailor-Made Possibilities

The renowned engineering and design capabilities are always available to realize the architectural vision with customized specifications for your premises.
