

KONE KSP 858

TOUCHSCREEN DESTINATION OPERATING PANEL
FOR KONE POLARIS™ 800 AND 900 DESTINATION CONTROL SYSTEMS

When using the KONE Polaris Destination Control System, passengers select their destination using a destination operating panel (DOP) in the lobby and are then guided to a dedicated elevator car. The KSP 858 is a touchscreen DOP incorporating the latest capacitive touchscreen technology and a highly intuitive interface for an effortless elevator experience.

FEATURES

- Versatile DOP with large, highly responsive touchscreen
- User-friendly interface with clear, high-contrast display
- Modern design with durable, easy-to-clean materials
- Four intuitive user interface options for destination entry
- Clear passenger guidance with directional indication
- Can be integrated with KONE or third-party access control systems

The four intuitive user interface options are all designed for quick, easy destination entry and clear passenger guidance.

- **One-touch slider** – slide finger to select destination floor
- **Adaptive keypad** – enter floor using traditional keypad layout
- **Direct call** – tap to choose destination floor from one screen
- **Rotating list** – tap to choose destination floor from list

KSP 858 touchscreen destination operating panel

Key benefits

1 Highly visible, user-friendly interface

- Large, high-contrast glass screen viewable from all angles
- Four intuitive user interface options for destination entry
- Highly sensitive capacitive touchscreen can even be operated when wearing gloves

2 Innovative industrial design

- Modern design resulting from intensive usability research and analysis
- Durable glass and aluminum materials for a robust, high-quality finish
- High-contrast black and white graphics and square shape blend seamlessly with a wide variety of architectural interiors

3 Flexible integration

- Can be integrated with KONE or third-party access control solutions for improved building security and greater convenience for users
- Compatible with a wide variety of different access control interfaces; built-in card reader compartment included

4 Clear passenger guidance

- Directional arrows provide clear guidance on elevator location, even in complex lobby layouts
- Improves building accessibility by providing tailored guidance for passengers with special needs, including audio support and a dedicated accessibility button with Braille markings

5 Energy efficiency

- Short and long range proximity sensor with timer saves energy while prolonging the lifetime of the device

10.4" capacitive touchscreen with high-quality glass faceplate

Aluminum back plate separates DOP from wall for easier viewing

The KSP 858 touchscreen destination operating panel is also available with a pedestal matching the design of the operating panel. This makes it possible to place the DOP away from the crowded door entrance area to further improve lobby traffic.
